25X1 Dear

I want to pass along to you compliments from Ambassador Spiers, Director of Intelligence and Research at State Department, on your 19 February NID special analysis on Western Europe and Afghanistan. I am always proud when senior officials in Washington praise high quality analytical work by someone in the Intelligence Community. Accordingly, I wanted to make sure you were aware of the favorable reaction to your analysis and to add my own compliments on a job well done.

Yours,
